

PRESS RELEASE

It is increasingly clear and blatant that non-healthcare workers are receiving boosters.

From a Whatsapp message which was intended as an invitation to a number of people, the Moderna vaccine booster will be given to non-healthcare workers and will be done in a building on Jenderal Sudirman Street, Jakarta.

A screenshot of a WhatsApp message with a dark grey background and white text. The text is as follows:

Vaksinasi Ke-3 Moderna
Yth Bapak/Ibu Calon Penerima
Vaksin

The provision of boosters to healthcare workers is only 54.30% even though it has been running for two months. There is also still only 18.78% of the elderly who have been fully vaccinated. Vaccinations must be completed for vulnerable groups first. WHO also recommends not to give a third vaccine, so that vaccine equity is achieved.

Source: Ministry of Health (September 14, 2021)

If you see vaccinations being provided to non-healthcare workers, please report it to LaporCovid-19 on no.6

For health workers who are still having trouble getting the 3rd vaccine booster, please report it to LaporCovid-19 WhatsApp or Telegram.
